At this point, Netanyahu explained that humanitarian aid to Gaza is necessary for continued international support for Israel, and that without such aid - even its good friends will have difficulty supporting it for a long time, and it will be very difficult for Israel to continue the war until the end: &quot;That's why when the IDF and Shin Bet jointly recommended to the cabinet to accept, The war cabinet unanimously agreed to the American request to allow a tested entry of two fuel tankers a day into the southern Gaza Strip.&quot; Netanyahu added. The amount of fuel that will be put into the Strip is a minimum emergency amount whose purpose is to operate water and sewage pumps, without which the widespread spread of epidemics is expected, which could also harm IDF soldiers and Israeli civilians.</td>

Position paper: A plan for resettlement and final rehabilitation in Egypt of the entire population of Gaza: economic aspects

Main points:
- There is currently a unique and rare opportunity to evacuate the entire Gaza Strip in coordination with the Egyptian government. An immediate, realistic and sustainable plan for the resettlement and humanitarian rehabilitation of the entire Arab population in the Gaza Strip is required which aligns well with the economic and geopolitical interests of Israel, Egypt, the USA and Saudi Arabia.
- If 2023 is to bring a sustainable and peaceful solution, there is a huge amount of built and empty apartments owned by the government and privately owned in the two satellite cities of Cairo, sufficient to house about 6 million residents.
- The average cost of a 3-room apartment with an area of 35 square meters for an average Gazan family consisting of 5-14 people in one of the two cities indicated above is about $300. Taking into account the currently known size of the entire population living in the Gaza Strip, which ranges from about 1.4 for approximately 2.2 million people, it can be estimated that the total amount that will be required to be transferred to Egypt to finance the project will be on the order of 5 to 6 billion dollars.
- Throwing an immediate stimulus at such a height to the Egyptian economy will provide a tremendous and immediate benefit to al-Sisi’s regime. These sums of money, in relation to the Israeli economy, are minimal. Investing a few billion dollars (even if it is 20 or 30 billion dollars) to solve this difficult issue is an innovative, cheap and sustainable solution.

The Israeli army admitted on Thursday that it killed dozens of Palestinians in an air strike on the Maghazi refugee camp in Gaza on Christmas Eve.

An army spokesperson told Kan news that the military regretted that the attack, which killed 70 people, had harmed people adjacent to the intended target. "A preliminary investigation revealed that during the attack, additional buildings were damaged adjacent to the targets that were [meant to be] attacked," the spokesperson told Kan. "This apparently resulted in harm to those not involved... The IDF regrets the harm to those not involved."

Israel has previously bombed the camp, but the attack on Sunday was described as one of the "deadliest" since the start of the conflict in early October. The bombing of the camp started just before midnight on Christmas Eve and continued into Christmas Day. Hamas called the attack "a horrific massacre" and "a new war crime". On Wednesday, the Palestinian Health Ministry said the death toll from Israel's operation had surpassed 21,000, most of them women and children. Herzi Halevi, the head of the Israeli armed forces, said on Tuesday that the hostilities will continue for "many more months".

At least 1.9 million Palestinians have been internally displaced since the beginning of the Gaza assault, according to UN estimates. Only limited amounts of aid have been allowed to enter Gaza since the beginning of the war as Israel has imposed a total blockade on the strip, including cutting off water and electricity supplies, causing severe shortages of water, fuel, food, and medicines.

IDF edits and reuploads "evidence" video from a hospital used to justify its bombardment of it - this time blurring the laptop screen which had a picture of a soldier as a background as well as the charger with QI-148 on it with a charger that is not used in Gaza but only in Israel (second link). IDF spokesperson later stated that "this laptop belonged to a soldier that previously was kidnapped and released", failing to mention why this information wasn't included in the original video, as well as to why they have blurred the screen in the second upload if so, and why the IDF page has deleted this video all together since.
