Judicial decrees, decisions, positions, and orders issued by official Palestinian bodies:

- **The Palestinian Ministry of Foreign Affairs [stressed](#) that protecting humanitarian workers is both a legal and moral responsibility of the international community. It highlighted UN reports showing that more than 500 humanitarian workers have been killed in Gaza since October 2023. The ministry also [condemned](#) Israel's approval of thousands of settlement units in the "E1" area of Jerusalem and its surroundings, warning against the international community's reliance on mere statements of condemnation and urging genuine intervention and binding measures to stop them. (August 21, 2025)**
- **The State of Palestine has [urged](#) all countries to base the level of their relations with Israel on Israel's adherence to international law and UN resolutions. The Palestinian Ministry of Foreign Affairs stated that Israel's continued disregard for the international consensus opposing settlement expansion and the annexation of the West Bank demands a serious and united international response to put an end to this defiance and compel the occupying power to respect international law and international resolutions. Judicial decrees, decisions, positions, and orders issued by official Israeli bodies:

- Israel has [approved](#) plans to build settlements in the “E1” area near Jerusalem, a move that would effectively split the West Bank into two and severely undermine the prospect of a contiguous Palestinian state. Israeli Finance Minister Bezalel Smotrich welcomed the decision, saying: “The Palestinian state is being erased from the table not with slogans but with actions.” The plan includes the construction of 3,401 housing units within the municipal boundaries of the Ma’ale Adumim settlement, along with preliminary approval for the legalization of a settlement outpost in the southern Hebron Hills. (August 20, 2025)
- The Israeli army [announced](#) the call-up of around 60,000 reservists in preparation for an assault on Gaza City, as part of a broader plan involving the mobilization of 130,000 reservists over the stages of the military operation dubbed “Chariots of Gideon B.” Defense Minister Katz [instructed](#) army commanders to use all tools and force at their disposal to strike the “enemy” until it is subdued. (August 20, 2025)
- Israeli Communications Minister Shlomo Karhi [said](#) that the decision to build in the E1 project is a “historic and fair decision” and marks the beginning of “extending sovereignty.” He described the area as “the heart of the Land of Israel” and a strategic nerve center for the security of Jerusalem and for Jewish settlement in Judea and Samaria (the West Bank). He referred to plans to build thousands of housing units and expand settlements throughout the territory, stressing that “there will be no Palestinian state between the Jordan and the sea.” (August 21, 2025)

Judicial decrees, decisions, positions, and orders issued by Arab, European, and international bodies:

- The General Secretariat of the Organization of Islamic Cooperation [condemned](#) Israel’s decision to freeze the bank accounts of the Orthodox Patriarchate in occupied Jerusalem and to impose steep taxes on its properties, calling it part of ongoing assaults on holy sites and freedom of worship. It also [denounced](#) the Israeli Prime Minister’s visit to the “Ofra” settlement in the occupied West Bank, describing it as a continuation of blatant violations of international law and United Nations resolutions. (August 16–17, 2025)
- Juliette Touma, Director of Communications at UNRWA, [warned](#) that “we are very, very close to losing our collective humanity,” stressing that the famine in Gaza is man-made and largely the result of deliberate actions. She added that there must be a return to a unified, UN-led

coordination and distribution system grounded in international humanitarian law. (August 17, 2025)

- **The United Nations Relief and Works Agency for Palestine Refugees (UNRWA) [stated](#) that most children in Gaza examined by its medical teams are suffering from emaciation and weakness and risk dying if they do not urgently receive treatment. The agency added that more than 50,000 children in Gaza have been killed or injured since October 7, 2023, calling for an end to “this war on children.”** (August 17, 2025)
- **The Egyptian Ministry of Foreign Affairs [expressed](#) deep concern over reports that Israel has held consultations with some countries regarding the possible displacement of Palestinians from the Gaza Strip to their territories, describing it as part of a rejected Israeli policy aimed at emptying Palestinian land, occupying it, and liquidating the Palestinian cause. The ministry said its communications with those countries confirmed they do not accept such deplorable schemes. Egypt reiterated its absolute rejection of any Israeli plans to displace the Palestinian people from their land.** (August 17, 2025)
- **The United Nations World Food Programme (WFP) [confirmed](#) that aid reaching Gaza still accounts for only 47% of the daily target. The agency [noted](#) that as of July 2025, more than 320,000 children under the age of five in Gaza are at risk of acute malnutrition, as families survive on minimal basic food supplies with almost no dietary diversity.** (August 17, 2025)
- **Australia has [canceled](#) the visa of Israeli Knesset member Simcha Rothman of the “Religious Zionism” party, led by far-right Finance Minister Bezalel Smotrich. The decision followed Rothman’s calls for the annexation of the occupied West Bank and his opposition to the establishment of a Palestinian state. Rothman had been scheduled to visit Sydney and Melbourne this month at the invitation of a local Jewish organization.** (August 18, 2025)
- **Norway [announced](#) tighter ethical scrutiny of its sovereign wealth fund’s investments in Israeli companies. As part of this move, six companies linked to Israel’s activities in the West Bank and Gaza Strip were excluded from the fund’s investment portfolio.** (August 18, 2025)
- **The United Nations and non-governmental organizations [warned](#) of catastrophic consequences from Israel’s intensified assault on Gaza City, stressing that forcing hundreds of thousands of residents to move south could amount to forced transfer. The UN reiterated its call for a permanent ceasefire, the immediate release of hostages, and unrestricted humanitarian access.** (August 18, 2025)

- UN High Commissioner for Human Rights spokesperson Thameen Al-Khitan [said](#) that video footage showing Israeli National Security Minister Itamar Ben-Gvir berating, attacking, and taunting Palestinian leader Marwan Barghouti inside prison constitutes an attack on his dignity, stressing that international law requires all detainees to be treated humanely and with respect for their rights. Al-Khitan also warned that famine threatens Gaza due to the Israeli government's policy of blocking humanitarian aid from entering the territory. (August 19, 2025)
- Francesca Albanese, the UN Special Rapporteur on the occupied Palestinian territories, [said](#) that Israel is killing, torturing, and starving Palestinians, and asserted that there are reasonable grounds to believe the United States is complicit in these crimes, while the European Union is flagrantly violating its international obligations to protect human rights. Albanese warned against the continuation of what she described as the "age of impunity". (August 19, 2025)
- The United States [announced](#) sanctions on a new group of judges and prosecutors from the International Criminal Court (ICC) over their involvement in efforts to investigate, arrest, or prosecute American or Israeli citizens. The U.S. Secretary of State claimed that the ICC poses a threat to American national security and serves as a legal tool against the United States and its ally, Israel. (August 20, 2025)
- The International Criminal Court (ICC) strongly [rejected](#) the new U.S. sanctions imposed on two judges and two deputy prosecutors, calling them a blatant attack on the independence of an impartial judicial institution operating under the mandate of 125 member states. The Court said the sanctions constitute an affront to its States Parties, the rules-based international order, and millions of victims worldwide. It stressed its commitment to fulfilling its legal mandate regardless of pressure or threats, and called on member states to support the Court. (August 20, 2025)
- The UK Foreign Office [rejected](#) the Israeli government's decision to revoke the visas of Australia's representatives to the Palestinian Authority, describing the move as an obstacle to the dialogue and diplomacy necessary to achieve a long-term solution for Palestinians and Israelis. It also stressed the need for a ceasefire. (August 20, 2025)
- UN Secretary-General António Guterres [emphasized](#) the urgent need for an immediate ceasefire in Gaza, warning of the heavy losses and destruction that any military operation in the Strip would cause. He also underscored the necessity of reversing the decision to expand illegal settlements in the West Bank. (August 21, 2025)

- UNRWA [reported](#) that for nearly six months, no shelter supplies have been allowed into Gaza, where about 90 percent of the population is displaced and living in overcrowded conditions. It called for immediate access to bring in shelter supplies. (August 21, 2025)
- The United Nations Office for the Coordination of Humanitarian Affairs (OCHA) [affirmed](#) that intensified Israeli military operations in the Gaza Strip have caused further civilian casualties and displaced more than 796,000 people since March 2025. It warned of devastating humanitarian consequences if Israel proceeds with plans to expand its offensive in Gaza City. OCHA also reported that international organizations have been unable to deliver aid since early March and face the risk of deregistration, while people with disabilities suffer from a severe lack of rehabilitation services amid worsening environmental pollution. (August 21, 2025)
- UN High Commissioner for Human Rights Volker Türk [said](#) that the United States' imposition of additional sanctions on judges and deputy prosecutors of the International Criminal Court constitutes an assault on the rule of law and undermines justice. He called on the international community to take measures to protect these individuals, including urging companies not to implement the sanctions, and to lift all previous sanctions imposed on judges, prosecutors, and the Special Rapporteur on the Occupied Palestinian Territory. (August 21, 2025)
- [France](#) condemned Israel's approval of the E1 settlement plan, which calls for the construction of more than 3,000 housing units east of Jerusalem, and urged Israel to abandon the project, describing it as a serious violation of international law. The decision was also condemned by [Poland](#), which said it continues to coordinate with the European Union and its partners to reach a joint response. [Finland](#) summoned the Israeli ambassador to express its deep concern, while Austria also issued a condemnation. In addition, the [foreign ministers of 21 countries](#), including the [United Kingdom](#), which also [summoned](#) the Israeli ambassador, as well as Australia, [Spain](#), Canada, [Austria](#) and Japan, voiced opposition, alongside the EU's High Representative for Foreign Affairs, the [UN Secretary-General](#), the [Arab League](#), and the [Arab Parliament](#). - **Peace Now [reported](#) that settlers established a new settlement by placing two caravans in the Tel Rumeida neighborhood of Hebron, on land designated as H1 under the 1997 Hebron Agreement and under full Palestinian control. This constitutes a violation of both signed international agreements and Israeli military law. The caravans were placed between a mosque and a Palestinian girls' high school, blocking the school's entrance and one of the mosque's doors. (August 17, 2025)**
- **Amnesty International [said](#) that Israel is carrying out a deliberate campaign of starvation against Palestinians in Gaza, through policies that have created the deadly combination of hunger and disease, amounting to ongoing genocide. (August 19, 2025)
- ARIJ [confirmed](#) that since 1967 to 2025, the Israeli occupation has classified more than 2,400 Palestinian archaeological sites in the West Bank as so-called Israeli antiquities sites. (August 21, 2025)
- Gisha - Legal Center for Freedom of Movement [released](#) an update titled *"The claims Israel makes vs. reality,"* noting that "baseless claims" such as the absence of hunger in Gaza Strip, the lack of obstruction to humanitarian aid, and the ability of local institutions to meet humanitarian needs are being used by Israel to evade responsibility for the famine. It called on the international community to act immediately to stop the genocide and ensure unrestricted humanitarian access. (August 22, 2025)
